## **Tentang**

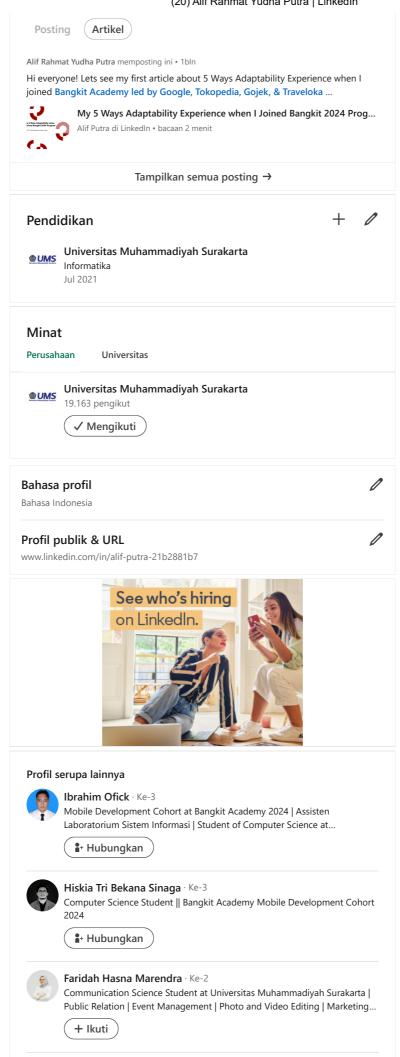

0

Hi, I'm Alif Rahmat Yudha Putra. I'm an Independent Study's student at Bangkit, and my current speciality is Mobile and Web Development. My educational background is Informatics at Universitas Muhammadiyah Surakarta, but I am currently studying at the Bangkit program. There are still many things that I need to learn. I want to continue to gain knowledge to become a reliable mobile and web development. One of the targets I want to achieve is to get a recognized certification. I hope to provide society with more significant benefits through technology.
